

The Central MS Turtle Rescue is a 501(c)(3) nonprofit organization providing rescue and rehabilitation of injured and sick turtles and tortoises in Mississippi. We provide housing, food, and any needed medical care. Rehabilitated turtles and tortoises are released back to the wild where they belong, or are found appropriate permanent homes in cases where release isn't possible. We are state permitted and licensed wildlife rehabilitators through the MS Department of Wildlife, Fisheries and Parks.
